WE are the most extensive growers of Turnip and Cabbage Seed in the United States. We annually select our finest formed Turnips and the most solid heads of our Cabbage to produce our seed, and there could be no finer quality than what we supply our customers.

ORDER your supply put up in our Beautifully Illustrated Sealed Cartons of ¼, ½ and 1 lb. packages, as it is more salable in that form, and a greater safeguard against errors in selling. It costs but one cent extra per package.

It is a well-known fact that Buist's growth of Cabbage Seed gives greater satisfaction, and heads with greater certainty in the South than any other. The reason of this is, that we grow all our seed from selected heads, giving their selection and cultivation personal attention.

There is no variety of vegetable in which there is so much deception, and so much spurious seed sold as Cabbage. To select choice heads for seed which are formed the first year, and then run the chance of their wintering without damage, and continue to cultivate for another season before the seed is ready for harvesting, is a very expensive operation, and no choice seed can be produced in any other way. The cheap seed offered in the trade is of no value to the gardener, as it will never head. One might as well burn his money as to invest in it.
